Notes to Condensed Consolidated Financial Statements (unaudited)

(Amounts in thousands, except share and per share amounts)

March 31, 2018

The accompanying Condensed Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. Readers of this Quarterly Report should refer to the audited combined consolidated financial statements of Highlands REIT, Inc. for the year ended December 31, 2017, which are included in the Annual Report on Form 10-K, as filed with the U.S. Securities and Exchange Commission by Highlands REIT, Inc. on March 16, 2018, as certain note disclosures contained in such audited combined consolidated financial statements have been omitted from this Report. In the opinion of management, all adjustments (consisting of normal recurring accruals, except as otherwise noted) necessary for a fair presentation have been included in these financial statements.

1. Organization

Highlands REIT, Inc. ("Highlands"), which was formed in December 2015, is a Maryland corporation with a portfolio of multi-tenant office assets, industrial assets, retail assets, correctional facilities, multi-family assets, unimproved land and a bank branch. Prior to April 28, 2016, Highlands was a wholly owned subsidiary of InvenTrust Properties Corp. ("InvenTrust" and formerly known as Inland American Real Estate Trust, Inc.).

On April 28, 2016, Highlands was spun-off from InvenTrust through a pro rata distribution by InvenTrust of 100% of the outstanding shares of common stock, \$0.01 par value per share (the "Common Stock"), of Highlands to holders of record of InvenTrust's common stock as of the close of business on April 25, 2016 (the "Record Date"). Each holder of record of InvenTrust's common stock received one share of Common Stock for every one share of InvenTrust's common stock held at the close of business on the Record Date (the "Distribution"). As a result, Highlands became an independent, self-advised, non-traded public company. Highlands has elected to be taxed, and currently qualifies, as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code") for U.S. federal income tax purposes commencing with Highlands' short taxable year ending December 31, 2016. In connection with the Distribution, Highlands entered into a Separation and Distribution Agreement, Transition Services Agreement and Employee Matters Agreement with InvenTrust. Refer to Notes 4 and 11 for more details.

Each asset is owned by a separate legal entity, which maintains its own books and financial records, and each entity's assets are not available to satisfy the liabilities of other affiliated entities, except as otherwise disclosed in Note 5.

As of March 31, 2018 and December 31, 2017, the Company owned 15 assets and two parcels of unimproved land.

2. Summary of Significant Accounting Policies

The accompanying condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") and require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Refer to the Company's audited combined consolidated financial statements for the year ended December 31, 2017 included in the Company's Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission on March 16, 2018 (the "Annual Report"), as certain note disclosures contained in such audited financial statements have been omitted from these interim condensed consolidated financial statements.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Highlands and its predecessors, as well as all of Highlands' wholly owned subsidiaries (collectively, the "Company"). Wholly owned subsidiaries generally consist of limited liability companies (LLCs) and limited partnerships (LPs). The effects of all significant intercompany transactions have been eliminated.

As described in Note 1, on April 28, 2016, Highlands was spun off from InvenTrust. Prior to the Distribution, the historical condensed combined consolidated financial statements did not represent the financial position and results of a single legal entity, but rather a combination of entities under common control that had been "carved out" of InvenTrust's consolidated financial statements and reflected significant assumptions and allocations. The condensed combined consolidated financial statements reflect the operations of certain assets and liabilities that had been historically held by InvenTrust, but which were specifically identifiable or attributable to the Company.

Revenue Recognition

The Company commences revenue recognition on our leases based on a number of factors. In most cases, revenue recognition under a lease begins when the lessee takes possession of or controls the physical use of the leased asset. Generally, this occurs on the lease commencement date. The determination of who is the owner, for accounting purposes, of the tenant improvements determines the nature of the leased asset and when revenue recognition under a lease begins. If we are the owner, for accounting purposes, of the tenant improvements, then the leased asset is the finished space and revenue recognition begins when the lessee takes possession of the finished space, typically when the improvements are substantially complete. If we conclude we are not the owner, for accounting purposes, of the tenant improvements (the lessee is the owner), then the leased asset is the unimproved space and any tenant improvement allowances funded under the lease are treated as lease incentives which reduces revenue recognized over the term of the lease. In these circumstances, we begin revenue recognition when the lessee takes possession of the unimproved space for the lessee to construct their own improvements. We consider a number of different factors to evaluate whether the Company or the lessee is the owner of the tenant improvements for accounting purposes. These factors include:

- whether the lease stipulates how and on what a tenant improvement allowance may be spent;
- whether the tenant or landlord retains legal title to the improvements;
- the uniqueness of the improvements;
- the expected economic life of the tenant improvements relative to the length of the lease; and
- who constructs or directs the construction of the improvements.

The determination of who owns the tenant improvements, for accounting purposes, is subject to significant judgment. In making that determination, we consider all of the above factors. No one factor, however, necessarily establishes its determination.

Rental income is recognized on a straight-line basis over the term of each lease. The difference between rental income earned on a straight-line basis and the cash rent due under the provisions of the lease agreements is recorded as deferred rent receivable and is included as a component of accounts and rents receivable in the accompanying condensed consolidated balance sheets.

The Company records lease termination income if there is a signed termination agreement, all of the conditions of the agreement have been met and amounts due are considered collectible.

Share Based Compensation

HIGHLANDS REIT, INC. AND ITS PREDECESSORS

Notes to Condensed Consolidated Financial Statements (unaudited)

(Amounts in thousands, except share and per share amounts)

March 31, 2018

In accordance with FASB ASC Topic 718, Accounting for Share Based Compensation, companies are required to recognize in the income statement the grant-date fair value of stock options and other equity based compensation issued to employees. Under Topic 718, the way an award is classified will affect the measurement of compensation cost. Equity classified awards are measured at grant date fair value, and amortized on a straight-line basis over the vesting period of the stock and are not subsequently re-measured. The cost of the share based payments that are fully vested at the grant date are measured and recognized at that date.

Earnings Per Share

Basic earnings per share (“EPS”) is computed by dividing the net income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is calculated by dividing net income (loss) attributable to common stockholders by the weighted average number of common shares outstanding during the period plus any additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Any anti-dilutive securities are excluded from the diluted earnings per-share calculation.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (“ASU 2016-02”), which introduces a lessee model that brings most leases on the balance sheet and, among other changes, eliminates the requirement in current GAAP for an entity to use bright-line tests in determining lease classification. In March 2018, the FASB approved an amendment to 2016-02, which would provide lessors with a practical expedient, by class of underlying assets, to not separate non-lease components from the related lease components and, instead, to account for those components as a single lease component, if certain criteria are met. ASU 2016-02 is not effective for us until January 1, 2019, with early adoption permitted. We are continuing to evaluate this guidance and the impact to us, as both lessor and lessee, on our condensed consolidated financial statements. We expect to utilize the practical expedients proposed in the amended ASU 2016-02 as part of our adoption.

Recently Adopted Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. The core objective of ASU No. 2014-09 (as codified in ASC 606) is for an entity to recognize revenue based on the consideration it expects to receive in exchange for goods or services. Additionally, this ASU requires entities to use a single model in accounting for revenues derived from contracts with customers. ASU No. 2014-09 replaces prior guidance regarding the recognition of revenue from sales of real estate, except for revenue from sales that are part of a sale-leaseback transaction. The provisions of ASU No. 2014-09, as subsequently amended in conjunction with ASU No. 2016-08, Principal versus Agent Considerations (Reporting Revenue Gross Versus Net), comprise ASU 606, Revenue Recognition, became effective for us on January 1, 2018. The Company elected the modified retrospective method of adoption, but determined that there was no cumulative adjustment to be recorded in connection with the adoption of ASC 606. We have evaluated all of our revenue streams to identify which of our revenue streams would be subject to the provisions of ASC 606 and any differences in the timing, measurement or presentation of revenue recognition. In evaluating our revenue streams, substantially all of our revenues result from leasing transactions that are not within the scope of the new standard and will be governed by the recently issued leasing guidance, ASU 2016-02, which is discussed above and will not be effective until January 1, 2019. As a result, the Company has concluded that the adoption of ASC 606 did not have a material impact on the process for, timing of, and presentation and disclosure of revenue recognition from contracts with tenants and other customers.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 addresses eight specific cash flow issues with the objective of reducing diversity in practice. The cash flow issues include debt prepayment or debt extinguishment costs and proceeds from the settlement of insurance claims. The Company adopted ASU No. 2016-15 effective January 1, 2018, the effects of which were not material to the condensed consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, Classification and Presentation of Restricted Cash in the Statement of Cash Flows. ASU 2016-18 requires an explanation in the cash flow statement of a change in the total of (1) total cash, (2) cash equivalents, and (3) restricted cash or restricted cash equivalents. The Company adopted ASU No. 2016-18 effective January 1, 2018, the effects of which were presenting restricted cash and escrows with cash and cash equivalents in

the condensed consolidated statement of cash flow. The inclusion of restricted cash increased the beginning balances of the unaudited condensed consolidated statement of cash flow by \$2.2 million and \$7.0 million, respectively, and the ending balances by \$2.9 million and \$7.4 million, respectively, for the three months ended March 31, 2018 and 2017.

The Company is required to escrow cash balances for specific uses stipulated by certain of its lenders and other various agreements. As of March 31, 2018 and December 31, 2017, the Company's cash balances restricted for these uses were \$2.9 million and \$2.2 million, respectively.

The table below provides a reconciliation of cash, cash equivalents, and restricted cash reported within the Condensed Consolidated Balance Sheet that sum to the total of the same such amounts shown on the Condensed Consolidated Statement of Cash Flow.

	March 31, 2018	December 31, 2017
Cash and cash equivalents	\$ 52,335	\$ 53,852
Restricted cash	2,358	2,155
Restricted cash included in other assets	500	—
Total cash, cash equivalents and restricted cash	<u>\$ 55,193</u>	<u>\$ 56,007</u>

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805) Clarifying the Definition of a Business (“ASU 2017-01”). ASU 2017-1 clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting, including acquisitions (including treatment of acquisition costs), disposals, goodwill, and consolidation. The guidance is effective for annual periods beginning after December 15, 2018, including interim periods within those periods. Early adoption of this standard is permitted. The Company early adopted ASU 2017-01 effective as of July 1, 2017, the effects of which were not material to the condensed consolidated financial statements.

In February 2017, the FASB issued ASU No. 2017-05, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets. As it relates to gains on sale of real estate, we will apply the provisions of ASC 610-20, Gain or Loss From Derecognition of Non-financial Assets (“ASC 610-20”), and we expect to recognize any gains when we transfer control of a property and when it is probable that we will collect substantially all of the related consideration. The adoption of ASC 610-20 on January 1, 2018 did not have a material impact on our condensed consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation-Stock Compensation (Topic 718), Scope of Modification Accounting. ASU 2017-09 clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The guidance is effective prospectively for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, and early adoption is permitted. The early adoption of ASU 2017-09 in 2017 did not have a material impact on the condensed consolidated financial statements.

3. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following:

March 31, 2018**4. Transactions with Related Parties**

The following table summarizes the Company's related party transactions for the three months ended March 31, 2018, and 2017.

	Three Months Ended March 31,	
	2018	2017
Other reimbursements (a)	\$ 9	\$ —

- (a) The Separation and Distribution Agreement with InvenTrust called for reimbursement of insurance premiums for a six year term starting April 28, 2016, which the Company began accruing during the third quarter of the year ended December 31, 2017 when the Company received information to reasonably estimate the expense attributable to the Company.

5. Debt***Mortgages Payable***

Mortgage loans outstanding as of March 31, 2018 and December 31, 2017, net of unamortized deferred financing costs, were \$55,021 and \$55,273, respectively, and had a weighted average interest rate of 4.92% per annum. Deferred financing costs, net, as of March 31, 2018 and December 31, 2017 were \$591 and \$613, respectively. As of March 31, 2018, scheduled maturities for the Company's outstanding mortgage indebtedness had various due dates through December 2026, as follows:

For the year ended December 31,	As of March 31, 2018	Weighted average interest rate
2019	\$ —	—%
2020	—	—%
2021	19,725	5.25%
2022	9,505	5.24%
Thereafter	26,382	4.56%
Total	<u>\$ 55,612</u>	<u>4.92%</u>

The Company's ability to pay off mortgages when they become due is dependent upon the Company's ability either to refinance the related mortgage debt or to sell the related asset. With respect to each loan, if the applicable wholly-owned property-owning subsidiary is unable to refinance or sell the related asset, or in the event that the estimated asset value is less than the mortgage balance, the applicable wholly owned property-owning subsidiary may, if appropriate, satisfy a mortgage obligation by transferring title of the asset to the lender or permitting a lender to foreclose. As of March 31, 2018 and December 31, 2017, no debt is recourse to the Company, although Highlands or its subsidiaries may act as guarantor under customary, non-recourse carve-out clauses in our wholly owned property-owning subsidiaries' mortgage loans.

Some of the mortgage loans require compliance with certain covenants, such as debt service ratios, investment restrictions and distribution limitations. As of March 31, 2018 and December 31, 2017, the Company is in compliance with such covenants in all material respects.

6. Fair Value Measurements

In accordance with ASC 820, Fair Value Measurement and Disclosures, the Company defines fair value based on the price that would be received upon sale of an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company uses a fair value hierarchy that prioritizes

HIGHLANDS REIT, INC. AND ITS PREDECESSORS**Notes to Condensed Consolidated Financial Statements (unaudited)**

(Amounts in thousands, except share and per share amounts)

March 31, 2018

observable and unobservable inputs used to measure fair value. The fair value hierarchy consists of three broad levels, which are described below:

- Level 1 - Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.
- Level 2 - Observable inputs, other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Company has estimated fair value using available market information and valuation methodologies the Company believes to be appropriate for these purposes. Considerable judgment and a high degree of subjectivity are involved in developing these estimates and, accordingly, they are not necessarily indicative of amounts that would be realized upon disposition.

Financial Instruments Not Measured at Fair Value

The table below represents the fair value of financial instruments presented at carrying values in the consolidated financial statements as of March 31, 2018 and as of December 31, 2017.

	March 31, 2018		December 31, 2017	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Mortgages payable	\$ 55,612	\$ 56,126	\$ 55,886	\$ 56,862

The Company typically estimates the fair value of its debt instruments using a weighted average market effective interest rate of 4.47% per annum as of March 31, 2018. The Company estimates the fair value of its mortgages payable by discounting the anticipated future cash flows of each instrument at rates currently offered to the Company by its lenders for similar debt instruments of comparable maturities. The rates used are based on credit spreads observed in the marketplace during the quarter for similar debt instruments, and a floor rate that the Company has derived using its subjective judgment for each asset segment. Based on this, the Company determines the appropriate rate for each of its individual mortgages payable based upon the specific terms of the agreement, including the term to maturity, the quality and nature of the underlying property and its leverage ratio. The weighted average market effective interest rates used range from 4.15% to 4.97% as of March 31, 2018. For certain debt, the Company estimates the fair value of debt instruments based on the fair value of the underlying collateral. The Company has determined that its debt instrument valuations are classified in Level 2 of the fair value hierarchy.

7. Income Taxes

The Company is taxed and operates in a manner that will allow the Company to continue to qualify as a REIT for U.S. federal income tax purposes. So long as it maintains its qualification as a REIT, the Company generally will not be subject to U.S. federal income tax on taxable income that is distributed currently to stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its REIT taxable income (subject to certain adjustments) to its stockholders each year. If the Company fails to continue to qualify as a REIT in any taxable year, without the benefit of certain relief provisions, the Company will be subject to U.S. federal and state income tax on its taxable income at regular corporate tax rates and would not be able to re-elect REIT status during the four years following the year of the failure. Although the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and U.S. federal income and excise taxes on its undistributed income.

During the three months ended March 31, 2018, an income tax benefit of \$155 was included on the condensed consolidated statements of operations. During the three months ended March 31, 2017, an income tax expense of \$2 was included on the condensed consolidated statements of operations.

9. Earnings Per Share

Basic earnings per common share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings per common share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period, plus any additional common shares that would have been outstanding if the dilutive potential common shares had been issued.

The following table reconciles net loss attributable to the Company to basic and diluted EPS (in thousands, except share and per share data):

March 31, 2018**10. Share Based Compensation***Incentive Award Plan*

On April 28, 2016, the board of directors adopted, ratified and approved the Highlands REIT, Inc. 2016 Incentive Award Plan (the “Incentive Award Plan”), under which the Company may grant cash and equity-based incentive awards to eligible employees, directors, and consultants. Prior to the Company’s spin-off from InvenTrust, the board of directors of the Company (then a wholly owned subsidiary of InvenTrust) adopted, and InvenTrust, as the sole stockholder of Highlands, approved, the Incentive Awards Plan. During the three months ended March 31, 2018, the Company granted 5,621,212 fully vested shares of common stock with an aggregate value of \$1,855 based on an estimated net asset value per share of \$.33 and during the twelve months ended December 31, 2017, the Company granted 3,454,761 fully vested shares of common stock with an aggregate value of \$1,209 based on an estimated net asset value per share of \$0.35. Under the guidance of ASC 718, during the twelve months ended December 31, 2017, 1,940,476 shares of common stock awards were treated as a modification of the terms of the original awards for two of the Company’s executive officers, resulting in an increase in compensation expense of \$650 at the modification date. Under the Incentive Award Plan, the Company is authorized to grant up to 43,000,000 shares of the Company’s common stock pursuant to awards under the plan. At March 31, 2018, 25,868,471 shares were available for future issuance under the Incentive Award Plan. A summary of the Company’s stock awards activity as of March 31, 2018 is as follows:

Non-Vested stock awards	Stock Awards	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2018	—	\$ —
Granted	5,621,212	0.33
Vested	(5,621,212)	0.33
Forfeited	—	—
Balance at March 31, 2018	—	\$ —

For the three months ended March 31, 2018 and 2017, the Company recognized stock-based compensation expense of \$1,855 and \$1,338, respectively, related to the Incentive Award Plan. At March 31, 2018, there was approximately \$0 of estimated unrecognized compensation expense related to these awards. For the three months ended March 31, 2018 and 2017, the Company paid \$876 and \$994, respectively, related to tax withholding for share-based compensation.

The Company repurchased and retired 116,334 of fully vested shares previously awarded to an employee pursuant to a separation agreement during the three months ended March 31, 2018. The shares were repurchased based on the Company’s most recently announced per share estimated net asset value of \$.33.

11. Commitments and Contingencies

The Company is subject, from time to time, to various legal proceedings and claims that arise in the ordinary course of business. While the resolution of these matters cannot be predicted with certainty, management believes, based on currently available information, that the final outcome of such matters will not have a material adverse effect on the financial statements of the Company.

In addition, in connection with the Company’s separation from InvenTrust, on April 14, 2016, the Company entered into a Separation and Distribution Agreement, and on April 28, 2016, the Company entered into a Transition Services Agreement and Employee Matters Agreement, each with InvenTrust. Pursuant to the Separation and Distribution Agreement, Highlands has agreed to indemnify, defend and hold harmless InvenTrust and its affiliates and each of their respective current or former stockholders, directors, officers, agents and employees and their respective heirs, executors, administrators, successors and assigns from and against all liabilities relating to, arising out of or resulting from (i) the liabilities assumed by Highlands in the Separation and Distribution Agreement, Transition Services Agreement and Employee Matters Agreement, (ii) any breach by Highlands or any of its subsidiaries of the Separation and Distribution Agreement, Transition Services Agreement and Employee Matters Agreement (iii) losses arising from third party claims relating to the separation and

distribution and (iv) any untrue statement or alleged untrue statement of a material fact or omission or alleged omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, with respect to all information contained in the Registration Statement, other than specified information relating to and provided by InvenTrust (the “Specified InvenTrust Information”). Similarly, InvenTrust has agreed to indemnify, defend and hold harmless Highlands and its affiliates and each of their respective current or former stockholders, directors, officers, agents and employees and their respective heirs, executors, administrators, successors and assigns from and against all liabilities relating to, arising out of or resulting from (i) the liabilities assumed by InvenTrust in the Separation and Distribution Agreement, Transition Services Agreement and Employee Matters Agreement, (ii) any breach by InvenTrust or any of its subsidiaries of the Separation and Distribution Agreement, Transition Services Agreement and Employee Matters Agreement and (iii) the Specified InvenTrust Information. InvenTrust and Highlands will not be deemed to be affiliates of the other for purposes of determining the above described indemnification obligations.

Highlands has also agreed to indemnify InvenTrust against all taxes related to the Company, its subsidiaries and its assets, including taxes attributable to periods prior to the separation and distribution. InvenTrust has agreed to indemnify the Company for any taxes attributable to failure by InvenTrust or MB REIT (Florida), Inc., a subsidiary of the Company, to qualify as a REIT for any taxable year ending on or before December 31, 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with “Part I-Financial Information,” and the historical combined consolidated financial statements, and related notes included elsewhere in our Annual Report on Form 10-K. The following discussion and analysis contains forward-looking statements based upon our current expectations, estimates and assumptions that involve risks and uncertainties. Our actual results could differ materially from those discussed in these forward-looking statements due to a variety of risks, uncertainties and other factors, including but not limited to, factors discussed in “Part I-Item 1A. Risk Factors” and “Disclosure Regarding Forward-Looking Statements in our Annual Report on Form 10-K.” The following discussion and analysis should be read in conjunction with the Company's Combined Consolidated Financial Statements and accompanying notes, which appear in our Annual Report on Form 10-K.

Certain statements in this Quarterly Report on Form 10-Q, other than purely historical information, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements include statements about Highlands' plans, objectives, strategies, financial performance and outlook, trends, the amount and timing of future cash distributions, prospects or future events and involve known and unknown risks that are difficult to predict. As a result, our actual financial results, performance, achievements or prospects may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “guidance,” “predict,” “potential,” “continue,” “likely,” “will,” “would,” “illustrative” and variations of these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by Highlands and its management based on their knowledge and understanding of the business and industry, are inherently uncertain. These statements are not guarantees of future performance, and stockholders should not place undue reliance on forward-looking statements. There are a number of risks, uncertainties and other important factors, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking statements contained in this Quarterly Report on Form 10-Q. Such risks, uncertainties and other important factors include, among others: the risks, uncertainties and factors set forth in our filings with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K; business, financial and operating risks inherent to real estate investments and the industry; our ability to renew leases, lease vacant space, or re-let space as leases expire; our ability to repay or refinance our debt as it comes due; difficulty selling or re-leasing our properties due to their specific characteristics as described elsewhere in this report; the business, financial and operating risks inherent to real estate investments; contraction in the global economy or low levels of economic growth; our ability to sell our assets at a price and on a timeline consistent with our investment objectives, or at all; our ability to service our debt; changes in interest rates and operating costs; compliance with regulatory regimes and local laws; uninsured or underinsured losses, including those relating to natural disasters or terrorism; our status as an emerging growth company; the amount of debt that we currently have or may incur in the future; provisions in our debt agreements that may restrict the operation of our business; our separation from InvenTrust and our ability to operate as a stand-alone public reporting company; our organizational and governance structure; our status as a REIT; the cost of compliance with and liabilities under environmental, health and safety laws; adverse litigation judgments or settlements; the outcomes and projected length of the foreclosure proceedings currently pending relating to our assets; changes in real estate and zoning laws and increase in real property tax rates; changes in federal, state or local tax law, including legislative, administrative, regulatory or other actions affecting REITs; changes in governmental regulations or interpretations thereof; and estimates relating to our ability to make distributions to our stockholders in the future.

These factors are not necessarily all of the important factors that could cause our actual financial results, performance, achievements or prospects to differ materially from those expressed in or implied by any of our forward-looking statements. Other unknown or unpredictable factors also could harm our results. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made, and we do not undertake or assume any obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

The following discussion and analysis should be read in conjunction with the Company's Condensed Consolidated Financial Statements and accompanying notes, which appear elsewhere in this Quarterly Report on Form 10-Q.

Overview

We are a self-advised and self-administered real estate investment trust (“REIT”) created to own and manage substantially all of the “non-core” assets previously owned and managed by our former parent, InvenTrust Properties Corp., a Maryland corporation (“InvenTrust”). On April 28, 2016, we were spun-off from InvenTrust through a pro rata distribution (the “Distribution”) by InvenTrust of 100% of the outstanding shares of our common stock to holders of InvenTrust’s common stock. Prior to or concurrent with the separation, we and InvenTrust engaged in certain reorganization transactions that were designed to consolidate substantially all of InvenTrust’s remaining “non-core” assets in Highlands REIT.

This portfolio of “non-core” assets, which were acquired by InvenTrust between 2005 and 2008, included assets that are special use, single tenant or build to suit; face unresolved legal issues; are in undesirable locations or in weak markets or submarkets; are aging or functionally obsolete; and/or have sub-optimal leasing metrics. A number of our assets are retail properties located in tertiary markets, which are particularly susceptible to the negative trends affecting retail real estate. As a result of these characteristics, such assets are difficult to lease, finance and refinance and are relatively illiquid compared to other types of real estate assets. These factors also significantly limit our asset disposition options, impact the timing of such dispositions and restrict the viable options available to the Company for a future potential liquidity event.

Our strategy is focused on preserving, protecting and maximizing the total value of our portfolio with the long-term objective of providing stockholders with a return of their investment. We engage in rigorous asset management, and seek to sustain and enhance our portfolio, and improve the quality and income-producing ability of our portfolio, by engaging in selective dispositions, acquisitions, capital expenditures, financing, refinancing and enhanced leasing. We are also focused on cost containment efforts across our portfolio, and improving our overall capital structure and making select investments in our existing “non-core” assets to maximize their value. To the extent we are able to generate cash flows from operations or dispositions of assets, in addition to the cash uses outlined above, our Board of Directors has determined that it is in the best interests of the Company to seek to reinvest in assets that are more likely to generate more reliable and stable cash flows, such as multi-family assets, as part of the Company’s overall strategy to optimize the value of the portfolio, enhance our options for a future potential liquidity event and maximize shareholder value. Given the nature and quality of the “non-core” assets in our portfolio as well as current market conditions, we expect this strategy will take multiple years to develop and execute.

As of March 31, 2018, our portfolio of assets consisted of two office assets, two industrial assets, six retail assets, two multi-family assets, two correctional facilities, two parcels of unimproved land and one bank branch. References to the “Company,” “we” or “us” are to Highlands and its predecessors, as well as all of Highlands’ wholly owned subsidiaries.

We currently have three business segments, consisting of (i) net lease, (ii) retail and (iii) multi-tenant office. Our unimproved land and multi-family assets are presented in “other.” We may have additional or fewer segments in the future to the extent we enter into additional real property sectors, dispose of property sectors, or change the character of our assets. For the complete presentation of our reportable segments, see Note 8 to our Condensed Consolidated Financial Statements for the quarters ended March 31, 2018, and 2017.

Separation from InvenTrust

As a result of the Distribution, we and InvenTrust operate separately, each as an independent company. In connection with and in order to effectuate our separation from InvenTrust, we and InvenTrust entered into a Separation and Distribution Agreement. In addition, we entered into various other agreements with InvenTrust to effect the separation and provide a framework for our relationship with InvenTrust post-separation, such as a Transition Services Agreement and an Employee Matters Agreement. These agreements provide for the allocation between us and InvenTrust of InvenTrust’s assets, liabilities and obligations (including its properties, employees and tax-related assets and liabilities) attributable to periods prior to, at and after our separation from InvenTrust and govern certain relationships between us and InvenTrust after the Distribution.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Highlands and its predecessors, as well as all of Highlands’ wholly owned subsidiaries (collectively, the “Company”). Wholly owned subsidiaries generally consist of limited liability companies (LLCs) and limited partnerships (LPs). The effects of all significant intercompany transactions have been eliminated.

Our Revenues and Expenses

Revenues

[Table of Contents](#)

Our revenues are primarily derived from rental income and expense recoveries we receive from our tenants under leases with us, including monthly rent and other property income pursuant to tenant leases. Tenant recovery income primarily consists of reimbursements for real estate taxes, common area maintenance costs, management fees and insurance costs.

Expenses

Our expenses consist of property operating expenses, real estate taxes, depreciation and amortization expense, general and administrative expenses and provision for asset impairment. Property operating expenses primarily consist of repair and maintenance, management fees, utilities and insurance (in each case, some of which are recoverable from the tenant).

Key Indicators of Operating Performance

In evaluating our financial condition and operating performance, management focuses on the following financial and non-financial indicators, discussed in further detail herein:

- Cash flow from operations as determined in accordance with GAAP;
- Economic and physical occupancy and rental rates;
- Leasing activity and lease rollover;
- Management of operating expenses;
- Management of general and administrative expenses;
- Debt maturities and leverage ratios;
- Liquidity levels;
- Funds from operations (“FFO”), a supplemental non-GAAP measure and
- Adjusted funds from operations (“AFFO”), a supplemental non-GAAP measure.

See “Selected Financial Data” for further discussion of the Company’s use, definitions and limitations of FFO and AFFO.

Results of Operations

Comparison of the three months ended March 31, 2018, and 2017

Key performance indicators are as follows:

	As of March 31,	
	2018	2017
Economic occupancy (a)	82.6%	63.9%
Rent per square foot (b)	\$ 15.41	\$ 13.95

(a) Economic occupancy is defined as the percentage of total gross leasable area for which a tenant is obligated to pay rent under the terms of its lease agreement, regardless of the actual use or occupation by the tenant of the area being leased. Actual use may be less than economic square footage.

(b) Rent per square foot is computed as annualized rent divided by the total occupied square footage at the end of the period. Annualized rent is computed as revenue for the last month of the period multiplied by twelve months. Annualized rent includes the effect of rent abatements, lease inducements and straight-line rent GAAP adjustments.

The increase in the economic occupancy percentage in 2018 is due to the disposition of assets with low or no occupancy.

Condensed Consolidated Results of Operations

	For the Three months ended March 31,			
	2018	2017	Decrease	
Net loss	\$ (836)	\$ (6,840)	\$ 6,004	87.8%

Net loss decreased by \$6.0 million to \$0.8 million for the three months ended March 31, 2018 from a net loss of \$6.8 million for the three months ended March 31, 2017. The main factors contributing to the decrease was a reduction in interest expense of \$6.7 million related to the disposition of two net-lease assets and one multi-tenant office asset during 2017. Additionally, there were decreases in property operating expenses, real estate taxes and depreciation expense primarily related to the disposition of two net-lease assets, two multi-tenant office assets and two land parcels during the second, third and fourth quarters of 2017. Partially offsetting the decreases in expense was a reduction in total revenue related to the disposition of the assets discussed above and a reduction in occupancy at one of the correctional facilities.

Depreciation and amortization	3,131	5,624	(2,493)	(44.3)%
General and administrative expenses	4,179	4,078	101	2.5 %

Property Income and Operating Expenses

Rental income consists of monthly rent, straight-line rent adjustments, and amortization of acquired above and below market leases, pursuant to tenant leases. Tenant recovery income consists of reimbursements for real estate taxes, common area maintenance costs, management fees, and insurance costs. Other property income consists of lease termination fees and other miscellaneous property income. Property operating expenses consist of regular repair and maintenance, management fees, utilities, and insurance (in each case, some of which are recoverable from the tenant).

Rental income decreased by \$6.2 million in the three months ended March 31, 2018 compared to the same period in 2017 as a result of the disposition of the AT&T-St. Louis and Dulles Executive Plaza assets that were transferred to their respective lenders during 2017 as part of cooperative foreclosure processes and the sale of one of our multi-tenant office assets. In addition, rental income was eliminated at one of the correctional facilities during the first quarter of 2017 because the tenant elected not to renew their lease, leaving such property vacant.

Property operating expenses decreased by \$0.9 million in the three months ended March 31, 2018 compared to the same period in 2017 primarily as a result of the dispositions discussed above partially offset by an increase in expenses at two of the multi-tenant office assets.

Real Estate Taxes

[Table of Contents](#)

Real estate taxes decreased \$2.0 million for the three months ended March 31, 2018 compared to the same period in 2017 as a result of the property dispositions discussed above.

Depreciation and Amortization

Depreciation and amortization decreased by \$2.5 million for the three months ended March 31, 2018 compared to the same period in 2017 as a result of the dispositions discussed above.

General Administrative Expenses

General and administrative expenses increased by \$0.1 million to \$4.2 million for the three months ended March 31, 2018 from \$4.1 million for the three months ended March 31, 2017. The increase is primarily related to an increase in compensation related expense partially offset by a reduction in professional fees.

Non-Operating Income and Expenses

	(in thousands)			
	For the Three months ended March 31,			
	2018	2017	Increase/(Decrease)	
Non-operating income and expenses:

Gain (loss) on sale of investment properties	25	(3)	28	933.3 %
Interest expense	(706)	(7,365)	(6,659)	(90.4)%

Interest income

Interest income increase by \$0.1 million as a result of cash held in a higher interest bearing account during the three months ended March 31, 2018 as compared to the same period in 2017.

Gain (loss) on Sale of Investment Properties

During the three months ended March 31, 2018, the gain on sale of investment properties was \$0.03 million, which is attributed to Highlands' sale of a vacant land parcel related to one of our retail assets.

Interest Expense

Interest expense decreased by \$6.7 million to \$0.7 million for the three months ended March 31, 2018 from \$7.4 million for the three months ended March 31, 2017 primarily attributable to the disposition of assets and the associated debt during 2017 discussed above.

Leasing Activity

Our primary source of funding for our property-level operating activities and debt payments is rent collected pursuant to our tenant leases. The following table represents lease expirations as of March 31, 2018:

The following table represents new and renewed leases that commenced in the in the three months ended March 31, 2018.

	# of Leases	Gross Leasable Area	Rent per square foot	Weighted Average Lease Term
New	3	10,714	\$ 22.60	5.22
Renewals	2	34,869	\$ 7.64	5.00
Total	5	45,583	\$ 11.16	5.05

During the three months ended March 31, 2018, five new leases and renewals commenced with gross leasable area totaling 45,583 square feet. The weighted average lease term for new and renewal leases was 5.22 and 5.00 years, respectively.

Liquidity and Capital Resources

As of March 31, 2018, we had \$52.3 million of cash and cash equivalents, and \$2.4 million of restricted escrows.

Our principal demands for funds have been or may be:

- to pay the operating expenses of our assets;
- to pay our general and administrative expenses;
- to fund distributions;
- to service or pay-down our debt; and
- to fund capital expenditures and leasing related costs.

Generally, our cash needs have been and will be funded from:

- cash flows from our investment assets;
- proceeds from sales of assets; and
- proceeds from debt.

[Table of Contents](#)

Our assets have lease maturities within the next two years that are likely to reduce our cash flows from operations. In particular, 23.5% of our revenue for the three months ended March 31, 2018 is derived from a net lease with The GEO Group, Inc. on our Hudson correctional facility asset, which lease expires in January of 2020. There is no assurance that we will be able to re-lease these assets at comparable rates or on comparable terms, or at all.

We may, from time to time, repurchase our outstanding equity and/or debt securities, if any, through cash purchases or via other transactions. Such repurchases or transactions, if any, will depend on our liquidity requirements, contractual restrictions, and other factors. The amounts involved may be material.

Borrowings

The table below presents, on a condensed consolidated basis, the principal amount, weighted average interest rates and maturity date (by year) on our mortgage debt, as of March 31, 2018 (dollar amounts are stated in thousands).

Fixed rate mortgage debt maturing during the year ended December 31,	As of March 31, 2018	Weighted average interest rate, fixed
2019	\$ —	—%
2020	—	—%
2021	19,725	5.25%
2022	9,505	5.24%
Thereafter	26,382	4.56%
Total	<u>\$ 55,612</u>	<u>4.92%</u>

As of March 31, 2018 and December 31, 2017, no debt is recourse to the Company, although the Company or its subsidiaries may act as guarantor under customary, non-recourse carve-out clauses in our wholly owned property owning subsidiaries' mortgage loans.

Our ability to pay off our mortgages when they become due is, in part, dependent upon our ability either to refinance the related mortgage debt or to sell the related asset. With respect to each loan, if the applicable wholly owned property-owning subsidiary is unable to refinance or sell the related asset, or in the event that the estimated asset value is less than the mortgage balance, the applicable wholly owned property-owning subsidiary may, if appropriate, satisfy a mortgage obligation by transferring title of the asset to the lender or permitting a lender to foreclose.

Volatility in the capital markets could expose us to the risk of not being able to borrow on terms and conditions acceptable to us for refinancing.

Mortgage loans outstanding as of March 31, 2018 and December 31, 2017 were \$55.6 million and \$55.9 million, respectively, and had a weighted average interest rate of 4.92% per annum. For the three months ended March 31, 2018, we had no additional borrowings secured by mortgages on our assets.

Summary of Cash Flows

Comparison of the three months ended March 31, 2018 and March 31, 2017

	(in thousands)	
	For the Three months ended March 31, 2018	2017
Cash provided by operating activities	\$ 1,128	\$ 5,003
Cash used investing activities	(793)	(263)
Cash used in financing activities	(1,149)	(33,195)
Decrease in cash and cash equivalents	(814)	(28,455)
Cash, cash equivalents and restricted cash, at beginning of period	56,007	64,163
Cash, cash equivalents and restricted cash, at end of period	<u>\$ 55,193</u>	<u>\$ 35,708</u>

Cash provided by operating activities was \$1.1 million and \$5.0 million for the three months ended March 31, 2018, and 2017, respectively, and was generated primarily from operating income from property operations. Cash provided by

[Table of Contents](#)

operating activities decreased \$3.9 million when comparing to the same period in 2017 primarily as a result of the disposition of assets during 2017.

Cash used in investing activities was \$0.8 million and \$0.3 million for the three months ended March 31, 2018 and 2017, respectively. Cash used in investing activities increased \$.5 million when comparing to the same period in 2017 primarily as a result of an increase in capital expenditures and leasing fees.

Cash used in financing activities was \$1.1 million and \$33.2 million for the three months ended March 31, 2018 and 2017, respectively. Cash used in financing activities for the three months ended March 31, 2018 was primarily related to principal payments on mortgage debt of \$0.3 million and the payment for tax withholding on share-based compensation of \$.9 million. Cash used in financing activities for the three months ended March 31, 2017 was primarily due to principal payments on mortgage debt of \$2.0 million and the payoff of mortgage debt in the amount of \$30.3 million related to one of our retail assets.

We consider all demand deposits, money market accounts and investments in certificates of deposit and repurchase agreements with a maturity of three months or less, at the date of purchase, to be cash equivalents. We maintain our cash and cash equivalents at financial institutions. The condensed combined account balances at one or more institutions exceed the Federal Depository Insurance Corporation (“FDIC”) insurance coverage and, as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage.

Distributions

For the three months ended March 31, 2018 and 2017, no cash distributions were paid by Highlands.

Off-Balance Sheet Arrangements

As of December 31, 2017 and March 31, 2018, we had no off-balance sheet arrangements.

(b) The National Association of Real Estate Investment Trusts (“NAREIT”), an industry trade group, has promulgated a non-GAAP financial measure known as Funds From Operations, or FFO. As defined by NAREIT, FFO is net income (loss) in accordance with GAAP excluding gains (or losses) resulting from dispositions of properties, plus depreciation and amortization and impairment charges on depreciable property. We have adopted the NAREIT definition in our calculation of FFO as management considers FFO a widely accepted and appropriate measure of performance for REITs. FFO is not equivalent to our net income or loss as determined under GAAP.

Since the definition of FFO was promulgated by NAREIT, management and many investors and analysts have considered the presentation of FFO alone to be insufficient. Accordingly, in addition to FFO, we also use Adjusted Funds From Operations, or AFFO as a measure of our operating performance. We define AFFO, a non-GAAP financial measure, to exclude from FFO adjustments for gains or losses related to early extinguishment of debt instruments as these items are not related to our continuing operations. By excluding these items, management believes that AFFO provides supplemental information related to sustainable operations that will be more comparable between other reporting periods and to other public, non-traded REITs. AFFO is not equivalent to our net income or loss as determined under GAAP.

In calculating FFO and AFFO, impairment charges of depreciable real estate assets are added back even though the impairment charge may represent a permanent decline in value due to decreased operating performance of the applicable property. Further, because gains and losses from sales of property are excluded from FFO and AFFO, it is consistent and appropriate that impairments, which are often early recognition of losses on prospective sales of property, also be excluded.

We believe that FFO and AFFO are useful measures of our properties’ operating performance because they exclude noncash items from GAAP net income. Neither FFO nor AFFO is intended to be an alternative to “net income” nor to “cash flows from operating activities” as determined by GAAP as a measure of our capacity to pay distributions. Other REITs may use alternative methodologies for calculating similarly titled measures, which may not be comparable to our calculation of FFO and AFFO. The following section presents our calculation of FFO and AFFO to net income (in thousands):

	Three Months Ended March 31,	
	2018	2017
Net loss	\$ (836)	\$ (6,840)
Depreciation and amortization related to investment assets	3,129	5,552
(Gain) loss on sale of investment properties, net	(25)	3
Funds from operations and adjusted funds from operations	\$ 2,268	\$ (1,285)

The table below reflects additional information related to certain items that significantly impact the comparability of our FFO and AFFO and net income or significant non-cash items from the periods presented (in thousands). We have included this table because these items are not included in NAREIT’s definition of FFO, but we believe these items provide useful

[Table of Contents](#)

supplemental information that may facilitate comparisons of our ongoing operating performance between periods, as well as between REITs that include similar disclosure.

	Three Months Ended March 31,	
	2018	2017
Amortization of mark to market debt discounts and financing costs	\$ 21	\$ 37

Use and Limitations of Non-GAAP Financial Measures

FFO and AFFO do not represent cash generated from operating activities under GAAP and should not be considered as an alternative to net income or loss, operating profit, cash flows from operations or any other operating performance measure prescribed by GAAP. Although we present and use FFO and AFFO because we believe they are useful to investors in evaluating and facilitating comparisons of our operating performance between periods and between REITs that report similar measures, the use of this non-GAAP measure has certain limitations as an analytical tool. This non-GAAP financial measure is not a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to fund capital expenditures, contractual commitments, working capital, service debt or make cash distributions. This measurement does not reflect cash expenditures for long-term assets and other items that we have incurred and will incur. This non-GAAP financial measure may include funds that may not be available for management's discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions and other commitments and uncertainties. This non-GAAP financial measure, as presented, may not be comparable to non-GAAP financial measures as calculated by other real estate companies. Additionally, the Company believes the information included in the above table provides useful supplemental information that may facilitate comparisons of the Company's ongoing operating performance between periods, as well as between REITs that include similar disclosure.

We compensate for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our reconciliation to the most comparable GAAP financial measures, and our condensed consolidated statements of operations and cash flows, include interest expense, capital expenditures and other excluded items, all of which should be considered when evaluating our performance, as well as the usefulness of our non-GAAP financial measure. This non-GAAP financial measure reflects an additional way of viewing our operations that we believe, when viewed with our GAAP results and the reconciliation to the corresponding GAAP financial measure, provides a more complete understanding of factors and trends affecting our business than could be obtained absent this disclosure. We strongly encourage investors to review our financial information in its entirety and not to rely on a single financial measure.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to market risk associated with changes in interest rates in terms of the price of new fixed-rate debt upon maturity of existing debt and for acquisitions.

Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs.

Although all of our borrowings as of March 31, 2018 carry fixed interest rates, we may in the future borrow money bearing interest at variable rates. Increases in interest rates would increase our interest expense on any variable rate debt, as well as any debt that must be refinanced at higher interest rates at the time of maturity.

Existing fixed rate loans that are scheduled to mature in the next year or two are evaluated for possible early refinancing and/or extension due to consideration given to current interest rates. See to Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operation - Borrowings" for mortgage debt principal amounts and weighted average interest rates by year and expected maturity to evaluate the expected cash flows. As of March 31, 2018, we did not have any variable rate loans outstanding.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As required by Rule 13a-15(b) and Rule 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), our management, including our principal executive officer and our principal financial officer evaluated, as of

March 31, 2018, the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and Rule 15d-15(e) of the Exchange Act. Based on that evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures, as of March 31, 2018, were effective at a reasonable assurance level for the purpose of ensuring that information required to be disclosed by us in this Quarterly Report is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Exchange Act and is accumulated and communicated to management, including our principal executive officer and our principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting.

There has been no change in the Company's internal control over financial reporting during the quarter ended March 31, 2018 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II.

Item 1. Legal Proceedings

We are from time to time involved in legal actions arising in the ordinary course of business. We are not currently involved in any legal or administrative proceedings that we believe are likely to have a material adverse effect on our business, results of operations or financial condition.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K under the heading "Risk Factors."

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information
